BOSCH

Overview and Certifications

- ▶ 2 to 6 ton capacities
- ▶ Two Stage High Efficiency
- ▶ Standard passive dehumidification
- ▶ Standard ECM EON constant airflow (Variable Speed) blower motors on all sizes

1-2 3-5 6 7 8-9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 31 32 33 34 35 36 37 38 39 40																																					
MODEL: LM										CODE STRING LEVEL: A - Revision										CHANNEL: B - Bosch										STANDARD/SPECIAL: S - Standard							
NOMINAL CAPACITY: 024, 036, 048 060, 070										AGENCY OPTIONS: X - ETL (UL 1995)										NOT USED: X - None										DRIVE SPEED (MC ONLY): X - N/A							
ELECTRICAL CONFIGURATION: 1 - 208-230/60/1 2 - 277/60/1 3 - 208-230/60/3 4 - 460/60/3										MOTOR HP/QTY (BELT DRIVE ONLY) X - N/A										AIR FILTRATION: 3 - 1" Standard Throwaway Filter w/ 4-sided Filter Rack 4 - 2" MERV 8 w/ 4-sided Filter Rack 5 - 2" MERV 13 w/ 4-sided Filter Rack										NOT USED: X - None							
CABINET CONFIGURATION: HZ - Horizontal VT - Vertical										ECONOMIZER: X - None										WATER FLOW CONTROL OPTIONS: X - None 2 - 2 Way Solenoid Valve 5 - Circulating Pump										CONTROLS: X - Standard (UPM) M - DDC - Multi-Protocol (BacNET, Modbus, N2) (Control Air 5600) L - DDC - LonWorks (Control Air 5600 + LonWorks Card) P - DDC - Multi-Protocol (DDC - Modbus, BacNET, or N2) (Control Air 5600 + 3 point expansion module) G - DDC - LonWorks (Control Air 5600 + 3 point expansion module + LonWorks Card)							
COAX OPTIONS: C - Copper N - Cupro-nickel										TRANSFORMER: 7 - 75 VA										REFRIGERATION: X - None H - Hot Gas Reheat - On/Off										ELECTRICAL OPTIONS: A - EMS relay C - Compressor Monitor Relay E - Pump/valve relay G - Boilerless control J - Disconnect Switch M - Wire transformer to 208 volts X - As default for non used electrical codes							
WATER CONNECTIONS: F - Front										SmartStart Assist N - Comfort Alert Module B - Blower Monitor Relay D - Phase Monitor H - Flow proving switch K - Fire Alarm Relay/Dual Power Z - EMS Relay + Pump/Valve Relay										REVISION LEVEL: A - Current										ELECTRIC HEAT: X - None A - 5 kW C - 10 kW D - 15 kW E - 20 kW							
RETURN AIR CONFIGURATION: L - Left R - Right										CABINET CONSTRUCTION: A - G90 Steel / 1/2" Standard 1.5LB Dual Density Fiberglass C - G90 Steel / 1/2" Closed Cell Foam D - G90 Steel / 1/2" Standard 1.5LB Dual Density Fiberglass, Extra Quiet F - G90 Steel / 1/2" Closed Cell Foam, Extra Quiet										APPLICATION: G - Extended Range (Geothermal)										DISCHARGE AIR LOCATION: T - Top (VT only) S - Straight (HZ only) E - End (HZ only)							
FAN/MOTOR OPTION: A - Constant Airflow (variable speed) ECM T - Constant Torque ECM										AIR COIL: U - Uncoated D - DuoGuard										APPLICATION: G - Extended Range (Geothermal)										APPLICATION: G - Extended Range (Geothermal)

All dimensions within +/- 0.125". All condensate drain connections are 3/4" FPT. Specifications subject to change without notice. 1" filter rack extends 1.23" beyond the side of the unit. 2" filter rack extends 2.89" beyond the side of the unit. The 2" filter rack is 4 sided with a filter access door on one end and can accept either a 1" or 2" filter.

Technical drawings of the 1000 Series Air Handler, including front, side, and detail views with dimensions and labels.

Front View: Shows the air handler with dimensions A (width), J (height), L (depth), and H (height). Labels include "WATER OUT", "WATER IN", "ELECTRICAL KNOCKOUT", and "CONDENSATE DRAIN".

Side View: Shows the air handler with dimensions B (width), G (width), E (width), and H (height). The label "ELECTRICAL KNOCKOUT" is also present.

Detail View: Shows the air handler with dimensions D (height), F (width), Q (width), R (width), S (height), P (height), O (height), K' (width), and K (width). Labels include "ELECTRICAL HEAT KNOCKOUT" and "CONDENSATE DRAIN".

Isometric Views:

- LEFT HAND RETURN END BLOW:** Shows the air handler from the left side with the return air filter.
- RIGHT HAND RETURN END BLOW:** Shows the air handler from the right side with the return air filter.
- (5) HANGING BRACKETS:** Indicated on the right side of the air handler.

-
- The diagrams illustrate the installation of the HVAC unit with return air ducts. The left diagram shows the 'LEFT HAND RETURN END BLOW' configuration, and the right diagram shows the 'RIGHT HAND RETURN END BLOW' configuration. Both diagrams include labels for the supply air duct flanges, return air duct flanges, condensate drain, electrical heat knockout, and hanging brackets.
- LEFT HAND RETURN END BLOW**
- RIGHT HAND RETURN END BLOW**
- (2) SUPPLY AIR DUCT FLANGES
- (14) RETURN AIR DUCT FLANGES
- ** CONDENSATE DRAIN
- ELECTRICAL HEAT KNOCKOUT
- (15) HANGING BRACKETS

BOSCH

Operating Limits – Heating and Cooling	
Heating	Extended Range
Minimum ambient air temperature °F	40
Maximum ambient air temperature °F	85
Minimum evaporator entering air db/wb °F	50
Rated air coil entering air db/wb °F	68
Maximum evaporator entering air db/wb °F	80
Normal water coil entering fluid range °F	25-80*
Minimum water coil entering Fluid °F	20*
Cooling	Extended Range
Minimum ambient air temperature °F	50
Maximum ambient air temperature °F	100
Minimum evaporator entering air db/wb °F	68/57
Rated air coil entering air db/wb °F	80/67
Maximum evaporator entering air db/wb °F	95/85
Minimum water coil entering fluid temperature °F	50
Water loop typical coil entering fluid range temperature °F	70/90
Maximum water coil entering fluid temperature °F	110

* Antifreeze solution is required at these fluid temperatures.

Extended Range - Anti-freeze required
 AHRI/ISO13256-1 certified performance is rated at entering air conditions of 80.6°F DB and 66.2°F WB in cooling and 68°F DB in heating.
 Tabulated unit performance does not include fan or pump power corrections required for AHRI/ISO standard performance ratings.
 Unit performance may be interpolated. Extrapolation is not allowed.
 For conditions other than rating conditions provided, consult the BST selection software.
 Ratings below 40°F are with a methanol solution.
DISCLAIMER: The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

Extended Range - Anti-freeze required
 AHRI/ISO13256-1 certified performance is rated at entering air conditions of 80.6°F DB and 66.2°F WB in cooling and 68°F DB in heating.
 Tabulated unit performance does not include fan or pump power corrections required for AHRI/ISO standard performance ratings.
 Unit performance may be interpolated. Extrapolation is not allowed.
 For conditions other than rating conditions provided, consult the BST selection software.
 Ratings below 40°F are with a methanol solution.

DISCLAIMER: The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

Extended Range - Anti-freeze required

AHRI/ISO13256-1 certified performance is rated at entering air conditions of 80.6°F DB and 66.2°F WB in cooling and 68°F DB in heating.

Tabulated unit performance does not include fan or pump power corrections required for AHRI/ISO standard performance ratings.

Unit performance may be interpolated. Extrapolation is not allowed.

For conditions other than rating conditions provided, consult the BST selection software.

Ratings below 40°F are with a methanol solution.

DISCLAIMER: The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

Extended Range - Anti-freeze required

AHRI/ISO13256-1 certified performance is rated at entering air conditions of 80.6°F DB and 66.2°F WB in cooling and 68°F DB in heating.

Tabulated unit performance does not include fan or pump power corrections required for AHRI/ISO standard performance ratings.

Unit performance may be interpolated. Extrapolation is not allowed.

For conditions other than rating conditions provided, consult the BST selection software.

Ratings below 40°F are with a methanol solution.

DISCLAIMER: The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.

Extended Range - Anti-freeze required

AHRI/ISO13256-1 certified performance is rated at entering air conditions of 80.6°F DB and 66.2°F WB in cooling and 68°F DB in heating.

Tabulated unit performance does not include fan or pump power corrections required for AHRI/ISO standard performance ratings.

Unit performance may be interpolated. Extrapolation is not allowed.

For conditions other than rating conditions provided, consult the BST selection software.

Ratings below 40°F are with a methanol solution.

DISCLAIMER: The performance reported herein is based on testing by FHP. Variations in the installation and operational environment may alter performance. Bosch disclaims all warranties, express and implied, that the performance will be as reported, including the warranty of merchantability and fitness for purpose. In addition, continuous research and development may result in a change to an appliances design and specifications at the time of order, which Bosch may change without notice. Before purchase, confirm the design specifications of the appliance.
