

Bosch Home Comfort Expands Air Purifier Line with Two New Compact Models

November 3, 2025

Small yet powerful, these new models deliver clean, healthy air for rooms up to 500 square feet

WATERTOWN, MASS. -- Bosch Home Comfort, a leading source of high-quality heating, cooling and hot water systems, has introduced two new models to its Bosch Air Series air purifiers. The Bosch Air 500 and Bosch Air 1000 are compact enough to sit on a nightstand, desk or dresser, offering clean, healthy air in smaller spaces.

“Following the successful launch of the Bosch Air Series in 2024, these new models extend our commitment to improving indoor air quality,” said Divya Darshini Piskala, Product Manager at Bosch Home Comfort. “Research shows that indoor air can contain two to five times more pollutants than outdoor air. With advanced Bosch filtration technology, these units deliver powerful, quiet performance in a compact design, making them ideal for small spaces and bringing fresh air where you need it most.”

Leveraging innovative filtration technology similar to models for larger rooms, these two latest models effectively improve air quality in rooms up to 500 square feet in size (about the area of two-car garage) with varying features. Designed for simplicity and performance, Bosch Air Purifiers feature easy-to-use controls and help remove over 99% of all particles such as pollen, pet dander, dust, and odors from the air.

Bosch Air 500 Specifications

[Bosch Air 500](#) was designed to provide clean and healthy air in the home and offers basic controls and portability. Bosch Air 500 features include:

- Removes over 99% of all particles such as pollen, pet dander, dust, and odors
- Can be placed on a bedside table, desk, dresser, or other table-top surface

- Filters air in rooms up to 500 sq. ft. in 60 minutes, or up to 100 sq. ft. (AHAM) in 12 minutes
- Purifies the air with an output (CADR) of 70 CFM
- Features a prefilter, HEPA layer, sleep mode, and child lock
- Equipped with a USB Type C charging port
- Stands 10.63 inches tall

Bosch Air 1000 Specifications

[Bosch Air 1000](#) offers the same functionality and powerful air purification as Bosch Air 500, with a few upgraded features, including:

- Auto mode which uses a built-in smart sensor to automatically adjust fan speed based on detected pollution levels and room size.
- A light ring indicator that displays air quality via color (Blue = Good, Purple = Ok, Orange = Poor, Red = Bad).

The Bosch Air 500 and Bosch Air 1000 join other air purifiers in the Bosch Air Series line, including:

- [Bosch Air 2000](#): Filters the air in rooms up to a size of 810 ft².
- [Bosch Air 4000](#): Filters the air in rooms up to a size of 1,345 ft².
- [Bosch Air 6000](#): Filters the air in rooms up to a size of 2,745 ft².

About Bosch Home Comfort

Bosch Home Comfort is a leading source of high-quality heating, cooling and hot water systems. The Company offers Bosch tankless, point-of-use and electric water heaters, Bosch and Buderus floor-standing and wall-hung boilers, Bosch and FHP water-source, geothermal and air-source heat pump systems, as well as controls and accessories for every product line. Bosch Home Comfort is committed to reinventing energy efficiency by offering smart products that work together as integrated systems that enhance quality of life in an ultra-efficient and environmentally friendly manner. Bosch strives to bring the most energy-efficient and environmentally responsible products to global consumers. In delivering the best products at affordable prices to our markets, Bosch has established multiple collaborations and joint ventures on a global scale to bring the latest technologies to North America. All global manufacturing facilities must adhere to stringent quality standards in order to provide the trusted Bosch brand. For more information, visit www.boschhomecomfort.us

Having established a presence in North America in 1906, today the Bosch Group employs more than 41,000 associates in more than 100 locations in the North American region (as of Dec. 31, 2024). According to preliminary figures, Bosch generated consolidated sales of \$17.4 billion in the U.S., Mexico and Canada in 2024. For more information visit www.bosch.us, www.bosch.mx and www.bosch.ca.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 417,900 associates worldwide (as of December 31, 2024). According to preliminary figures, the company generated sales of 90.5 billion euros in 2024. Its operations are divided into four business sectors: Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology. With its business activities, the company aims to use technology to help shape universal trends such as automation, electrification, digitalization, connectivity, and an orientation to sustainability. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in sensor technology, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence in order to develop and manufacture user-friendly, sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources. The Bosch Group comprises Robert Bosch GmbH and its roughly 470 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. At 136 locations across the globe, Bosch employs some 86,900 associates in research and development, of which nearly 48,000 are software engineers.

The company was set up in Stuttgart in 1886 by Robert Bosch (1861–1942) as "Workshop for Precision Mechanics and Electrical Engineering." The special ownership structure of Robert Bosch GmbH guarantees the entrepreneurial freedom of the Bosch Group, making it possible for the company to plan over the long term and to undertake significant upfront investments in the safeguarding of its future. Ninety-four percent of the share capital of Robert Bosch GmbH is held by Robert Bosch Stiftung GmbH, a charitable foundation. The remaining shares are held by Robert Bosch GmbH and by a company owned by the Bosch family. The majority of voting rights are held by Robert Bosch Industrietreuhand KG. It is entrusted with the task of safeguarding the company's long-term existence and in particular its financial independence – in line with the mission handed down in the will of the company's founder, Robert Bosch.
