FOR IMMEDIATE RELEASE

Bosch Thermotechnology Welcomes New North America President and CEO

Dr. Alexander Wuthnow has represented the Bosch Group and has driven growth and expansion for Bosch across five countries and two continents over the last 16 years.

WATERTOWN, MASS., (September 12, 2022) - [Bosch Thermotechnology](#), a leading global source of high-quality heating, cooling, and hot water systems, is pleased to announce Dr. Alexander Wuthnow as the new President and CEO of Bosch Thermotechnology North America, the HVAC division of German multi-conglomerate Robert Bosch.

The new President and CEO will direct the sales portfolio for a leading global source of state-of-the-art, highly efficient heat pumps, boilers, and hot water solutions. Under his leadership, Bosch Thermotechnology serves a large and diverse group of residential and commercial customers in the United States and Canada.

"It is a great honor for me to oversee this leading, highly innovative HVAC brand in North America," Dr. Wuthnow said. "Our high-performing team at Bosch Thermotechnology is focused on delivering energy-saving solutions that are designed to make homes and businesses more comfortable, efficient, connected and eco-friendly."

As a leader, Wuthnow believes in high performance and innovation while also ensuring that his team has an enjoyable experience at work, as well. Wuthnow earned a mechanical engineering doctorate from the Technical University of Dortmund. He has also studied at Stellenbosch University in South Africa and CERAM Sophia Antipolis in France.

###

About Bosch Thermotechnology Corp.

Bosch Thermotechnology Corp. is a leading source of high-quality heating, cooling and hot water systems. The Company offers Bosch and FHP water-source, geothermal and air-source heat pump systems, Bosch tankless, point-of-use and electric water heaters, Bosch and Buderus floor, standing and wall-hung boilers, as well as controls and accessories for every product line. Bosch Thermotechnology is committed to reinventing energy efficiency by offering smart products that work together as integrated systems that enhance quality of life in an ultra-efficient and environmentally friendly manner. Bosch strives to bring the most energy-efficient and environmentally responsible products to global consumers. In delivering the best products at affordable prices to our markets, Bosch has established multiple collaborations and joint ventures on a global scale to bring the latest technologies to North America. All global manufacturing facilities must adhere to stringent quality standards in order to provide the trusted Bosch brand. For more information, visit www.boschheatingandcooling.com

About Bosch

Having established a regional presence in 1906 in North America, the Bosch Group employs nearly 35,500 associates in more than 100 locations, as of December 31, 2021. In 2021, Bosch generated consolidated sales of \$13.5 billion in the U.S., Canada and Mexico. For more information, visit www.bosch.us, www.bosch.ca and www.bosch.mx.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 402,600 associates worldwide (as of December 31, 2021). The company generated sales of \$93.1 billion in 2021. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in some 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. With its more than 400 locations worldwide, the Bosch Group has been carbon neutral since the first quarter of 2020. The basis for the company's future growth is its innovative strength. At 128 locations across the globe, Bosch employs some 76,100 associates in research and development, of which more than 38,000 are software engineers.
